Silver Quartzite Experience is an art. The art of holistic treatments developed according to primordial knowledge, which enable people to regain their centre and regenerate quickly. The result not only feels like hitting the reset button, but inner growth takes place.

For people who are looking for a deep experience. All rituals and meditations are individually tailored and touch and nourish your soul, body and spirit. Kornelia has learned her craft from ancient healers, uses her own hands, most effective tree oils, flower powers and stones for her rituals.

"I have been given the gift of connecting very quickly, emotionally with people and their deepest desires and longings." says Kornelia Schwitzer.

By embarking on this journey, you will experience safari in the endless horizons of adventure, peace and tranquility, and be embraced during individual sessions in spaces of essence, for your personal Soul Experience.
